

FOR YOUTH DEVELOPMENT® FOR HEALTHY LIVING FOR SOCIAL RESPONSIBILITY

LESSON SELECTOR

WHAT AGE GROUP DOES THE STUDENT FALL INTO?

6 months-3 years PARENT* & CHILD: STAGES A-B

All age groups are taught the same skills but divided according to their developmental milestones.

WHICH STAGE IS THE STUDENT READY FOR?

*At the Y, we know families take a variety of forms. As a result, we define **parent** broadly to include all adults with primary responsibility for raising children, including biological parents, adoptive parents, guardians, stepparents, grandparents, or any other type of parenting relationship.

STAGE DESCRIPTIONS

A / WATER DISCOVERY

Parents accompany children in stage A, which introduces infants and toddlers to the aquatic environment through exploration and encourages them to enjoy themselves while learning about the water.

1/WATER ACCLIMATION

event of falling into a body

of water in stage 1. This

stage lays the foundation

that allows for a student's

future progress in swimming.

and learn to safely exit in the

Students develop comfort

B/WATER EXPLORATION

Water Exploration

R

In stage B, parents work with their children to explore body positions, floating, blowing bubbles, and fundamental safety and aquatic skills.

SWIM STARTERS

SWIM

BASICS

Accompanied by a parent, infants and toddlers learn to be comfortable in the water and develop swim readiness skills through fun and confidencebuilding experiences, while parents learn about water safety, drowning prevention, and the importance of supervision.

Students learn personal

achieve basic swimming

competency by learning

two benchmark skills:

• Swim, float, swim—

sequencing front glide,

roll, back float, roll,

front glide, and exit

• Jump, push, turn, grab

water safety and

2 / WATER MOVEMENT

•

In stage 2, students focus on body position and control, directional change, and forward movement in the water while also continuing to practice how to safely exit in the event of falling into a body of water.

3 / WATER STAMINA

Vater Stamina

In stage 3, students learn how to swim to safety from a longer distance than in previous stages in the event of falling into a body of water. This stage also introduces rhythmic breathing and integrated arm and leg action.

4 / STROKE INTRODUCTION

Students in stage 4 develop stroke technique in front crawl and back crawl and learn the breaststroke kick and butterfly kick. Water safety is reinforced through treading water and elementary backstroke.

5 / STROKE DEVELOPMENT

Students in stage 5 work on stroke technique and learn all major competitive strokes. The emphasis on water safety continues through treading water and sidestroke.

6 / STROKE **MECHANICS**

In stage 6, students refine stroke technique on all major competitive strokes, learn about competitive swimming, and discover how to incorporate swimming into a healthy lifestyle.
